#### ABOUT SCOTT AFB:

The 375th Airlift Wing makes possible the command and control of the United States' entire military transportation effort—the logistics efforts of the world's greatest military in the air, on the ground and over the sea. Together, we execute every Air Mobility Command sortie worldwide, in peace and in war. When the people or cargo is of the highest priority, we provide the global mobility ourselves in C-21s. When lives hang in the balance, we provide aeromedical evacuation worldwide. The same incredible Airmen who make Global Mobility happen at home station become combat-ready expeditionary forces for combatant commanders worldwide. As the host unit, the 375th AW supports four major headquarters and a numbered air force with worldwide responsibilities: U.S. Transportation Command, 18th Air Force, Air Mobility Command, the Surface Deployment Distribution Command and the Defense Information Technology Systems Agency. It also provides support for the Air Force Network Integration Center, the Defense Information Technology Contracting Office, the 932nd Airlift Wing (Reserve) and the Illinois Air National Guard's 126th Air Refueling Wing—along with approximately 66 other associate partner units.

#### ABOUT TRANSITION CAREERS: <http://www.TransitionCareers.com>

Transition Careers (TC) facilitates technical and security clearance career fairs for the DoD and Intelligence Communities. We create environments that bring job seekers and employers/recruiters together by producing strategic career fairs on-site at military installations and government communities nationwide and by providing a dynamic and comprehensive on-line job board.
